DESCRIPTION

The first phase of development was completed in Q1 2024, and comprises 9 industrial / warehouse units of steel portal frame construction with metal and timber clad elevations beneath a pitched roof.

The different units benefit from clear eaves heights of between 6.2m and 8.2m, electric level access loading doors and Units 1A and B have yard depths in excess of 23m. Rooflights are installed on each unit and the rest of the roof areas have a solar PV system providing green electricity to the development.

The units have been built to high energy efficiency standards, benefiting from EPC ratings of A.

Externally, the units have the dedicated spaces shown in the schedule of accommodation table and there is also generous communal car parking provision including disabled parking spaces. Each unit has one double EV charger and there are also 8 communal EV charging points.
